

INDIAN WATER WORKS ASSOCIATION

The Indian Water Works Association (IWWA) is a voluntary body of professionals concerned and connected with water supply for municipal, industrial, agricultural uses and treatment and disposal of wastewater. IWWA focuses basically on the entire "Water Cycle" encompassing the environmental, social, institutional and financing issues.

IWWA was founded in 1968 with headquarters at Mumbai under visionary leadership of late Shri D R Bhise. IWWA has 32 Centres spread across the country and is very active in conducting different activities in the areas of Water Supply and Waste water, Treatment and Disposal. IWWA has a membership of more than 9000 plus professionals spread all over the country and abroad.

IWWA brings out a quarterly research Journal and a newsletter called Mid-stream. IWWA Journal has a legacy of history of 48 years. The first issue was published for Jan-March 1969 after inauguration of IWWA on June 9, 1968 at the Institute of Engineers Hall, Mumbai. It is a quarterly published research journal and till now nearly 190 volumes have been printed. Catching up with technology, a lot development happened on printing of the Journal and now on this internet age we too are also evolving. We have scanned all old issues of IWWA journal and they are available in password protected PDF formats on IWWA website and have been arranged year wise and issue wise with an appropriate search facility.

Accomplishing the IWWA mission of spreading the knowledge we are offering Annual Subscription Membership for Engineering colleges / Institutes / Organizations. The details are as follows;

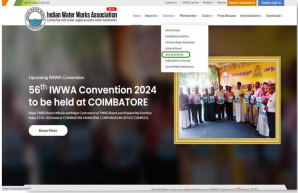

- Annual Subscription Fee Rs. 2500 /- for Indian Organisations and US\$ 100/- for Non-Indian organisations
