## Technical and Event Management Support

In association with

Supported by

MAHARASHTRA JEEVAN PRADHIKARAN  
WATER SUPPLY AND SANITATION DEPARTMENT, MAHARASHTRA

## About Nashik

Conference is in Nashik, India, known as a beautiful **“Wine Capital of India”**. Offers stunning views of dams and wineries. Delicious Maharashtrian cuisine. Rich history and culture. Memorable and rewarding experience for seasoned travelers and those seeking to expand horizons.

## About Venue

MEETRA is a vital Water Supply and Sanitation training institute in Maharashtra, focusing on Information and Knowledge Management (IKM). Its goal is to create, share, and utilize knowledge effectively. A well-defined IKM Strategy ensures sustained success by enabling secure and efficient information control and utilization for maximum impact and return on investment.

## Why should you Participate?

Explore the water utilities industry's latest trends, innovations, and best practices. Access expertise from renowned experts and practitioners in the field. Expand your network by connecting with peers and colleagues globally. Share your experiences and insights with like-minded professionals. Forge valuable relationships for personal and organizational growth. Contribute to advancing water utility services in the global South. Engage in idea-sharing, problem-solving, and forming partnerships to tackle water challenges in communities.

## About The Conference

WATER is a vital resource that sustains life and supports economic development. However, access to clean and safe water remains a significant challenge in many parts of the world, particularly in the global south. The conference aims to address water access challenges in the global south by gathering experts to share knowledge, experiences, and best practices. It seeks to provide valuable insights and solutions for water utilities in the region, contributing to the achievement of **UN Sustainable Development Goals** for universal access to clean water and sanitation.

## Conference Themes

- Water for Life: Addressing the Global Water Crisis Together
- Empowering Water Infrastructure & Utilities
- Water Conservation and Demand Management
- Water Governance and Policy
- Wastewater Management and Resource Recovery
- Climate Change Adaptation and Resilience
- Innovation, Technology, and Capacity Building
- Socio-economic Aspects of Water Management
- Circular Economy Approaches in Water Systems

## Conference Objective

Attendees can expect to learn about sustainable water management, innovative technologies, financing mechanisms, and governance models through keynote speeches, discussions, and interactive sessions, providing valuable insights into the sector's latest trends and best practices.

- Discussing the challenges faced by water Utilities systems
- Proposing solutions for improving water management
- Highlighting the success stories of water system
- Examining the impact of climate change on water utilities

## Expected Outcome

- Facilitate meaningful discussions and collaborations
- Foster knowledge sharing and exchange of best practices
- Explore innovative solutions for sustainable and efficient water management practices.
- Improve water management and enhance access to clean water in regions facing scarcity.
- Promote long-term sustainability in the Global South's water resources.
- Generate actionable insights and strategies for implementation
- Bring together experts, practitioners, policymakers, and stakeholders
- Contribute to the development of effective frameworks and initiatives
- Create a positive impact on water resources, ecosystems, and communities in the Global South.
